

Docket 04-233

I am writing to protest the airing of Stolen Honor the week before the upcoming election. This film is not news; it is blatant propaganda put together by a right-wing group without any real concern for the truth. The allegations in this attack have already been refuted by Kerry's crew members and by respected Vietnam veterans like John McCain. Sinclair Broadcasting Company's decision to force airing of this film is an outrageous attempt to influence the election and a breach of public trust. It is a sad day for the democracy Republicans profess to love when the public airwaves are abused in such a calculated manner.
